

MATRIX

Camps | Logistics | Aviation Management

Our Company:

MATRIX is a national company providing camps, logistics and aviation management services to a diverse range of clients in the resource and service sectors, focusing on safety, transparency and cost effectiveness.

We custom fit our services to the specific needs of our client's project, providing or securing and managing the most appropriate equipment, products, services, people, prices and timing on their behalf.

MATRIX uses a wide range of suppliers to provide variety and choice, which ensures that the selected option is a perfect fit. Our model is objective and unbiased - particularly important on critical issues such as: the due-diligence process applied to helicopter and fixed wing selection, personnel selection, camp safety, and fuel management.

MATRIX achieved the prestigious designation of CORTM Certification in 2011 through the Northern Safety Association.

The Certificate of recognition (CORTM) is a rigorous occupational health and safety program accreditation for industry employers that are aimed at reducing the human and financial costs associated with workplace accidents and injuries. Our management team is dedicated to provide a safe and healthy work environment.

Job Requirements:

MATRIX construction sites are located in remote regions of Canada and will operate on a rotation schedule.

MATRIX is looking for an experienced Camp Construction Manager to lead the construction of our client's camp facilities.

The Camp Construction Manager is located at our customer project sites throughout the construction and installation of the camp facility. The CCM reports to Matrix General Manager, who provides general direction and support. The CCM has the lead role for MATRIX during the construction phase of the project.

Responsibilities:

Camp Construction Manager will be leading a team or teams of experienced individuals most who have been with the company for 10 plus years. CCM is expected to cost out camp components and execute builds on time and on budget.
